HomeStay's premium in home monitoring product consist of an emergency hub, sensors, personal alarm, alerts and the HomeStay Connect App.

The Caring Intelligent Home sensors monitor daily activity for wellness and safety. If activity stops or varies from routine, an alert is raised. The emergency call button enables contact with a 24/7 response team when needed.

The Homestay Connect App can be shared with family and friends and provides a real time view of activities, trend data and enables customised alerts and notifications.

The Caring Intelligent Home:

Peace of mind for individuals, families and care givers

Connectivity with family, friends and care givers

Discrete sensors monitor activities and if activity stops or varies from routine an alert is raised

Quick and easy installation, no drilling required

No internet required

Easy to use, no lock in contracts

Flexibility to easily tailor the solution based on needs and lifestyle
