

**Technology  
enabling  
independence**

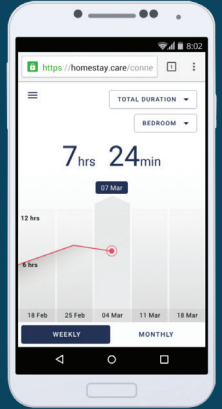

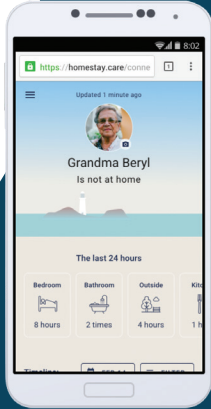

BE CONNECTED!

**HomeStay**

**HomeStay's  
Caring  
Intelligent  
Home**

HomeStay's premium in home monitoring product consist of an emergency hub, sensors, personal alarm, alerts and the HomeStay Connect App.

The Caring Intelligent Home sensors monitor daily activity for wellness and safety. If activity stops or varies from routine, an alert is raised. The emergency call button enables contact with a 24/7 response team when needed.

The Homestay Connect App can be shared with family and friends and provides a real time view of activities, trend data and enables customised alerts and notifications.

**The Caring Intelligent Home:**

-  **Peace of mind** for individuals, families and care givers
-  **Connectivity with family, friends** and care givers
-  Discrete sensors **monitor activities** and if activity stops or varies from routine an alert is raised
-  Quick and easy installation, **no drilling required**
-  **No internet required**
-  **Easy to use**, no lock in contracts
-  **Flexibility** to easily tailor the in-home solution based on needs and lifestyle

## Carers Companion

Carers Companion supports enhanced care delivery by easily capturing key information and streamlining shift handover processes.

Carers Companion supports carers to empower individuals to live more independently, supporting their daily planning and decision making.

### Carers Companion allows Carers to:

**Capture** resident's daily moods and behaviours, gaining insight through tracking trends and patterns

**Monitor** key wellness indicators and engage residents in the process

Set **reminders** for resident and house appointments and tasks

**Centrally manage** weekly meal plans, resident activities and carer schedules

**Be easily** inducted to the house and the residents that live there

## MyDay

MyDay is a simple and easy to use application that supports individuals to effectively manage their day with greater independence.

The application promotes decision making, mental stimulation and interactions with families, friends and carers.

### MyDay allows individuals to:

View **carers scheduled to visit** throughout the day

View **today's weather** and suggested clothing choices, enabling independence in getting ready for the day

View daily **activities and appointments**

Capture and store **photographs and memories** from daily activities

View what's on the **dinner** menu
